

Nathan Hilton, MD ***Radiation Oncologist***

“My interest in physics first drew me to radiation oncology. The field was exciting to me. I decided to specialize in radiation oncology while in medical school after spending time with the radiation oncologists in Galveston, and I’ve never looked back.”

Professional Education

Residency, Radiation Oncology,
Henry Ford Hospital, Detroit, MI,

TX, Biology

Compassionate Care

Few things are as scary as learning you have cancer. At MRO, we turn fear into confidence, with the passion of our care team, the power of our precision radiation technologies, and the strength of our collaborative approach to healing. You can count on the specialists at MRO to be there for you and give you every advantage in your fight.

Meet Nathan Hilton, MD

Dr. Nathan Hilton is a board-certified radiation oncologist who has been part of the MRO Radiation Therapy Center at Essentia Health – St. Joseph's Hospital in Brainerd since 2016. He focuses on treating cancer with radiation therapy, working closely with each patient to offer patient-specific care. His passion for advancing cancer treatment was pivotal in establishing Multidisciplinary Cancer Clinics. These clinics unite experts to personalize patient care and set a benchmark that continues to guide the field today. During his training as a radiation oncology resident, Dr. Hilton had the privilege of studying childhood cancers at St. Jude Children's Research Hospital. This experience deepened his understanding of the unique challenges in treating young patients and strengthened his dedication to improving cancer care across all age groups.

Beyond his professional achievements, Dr. Hilton finds joy in giving back to his community. He's actively involved in his church, where he has taken on leadership roles, including mentoring youth and serving on a two-year church mission. In his personal time, he enjoys spending time with his family, fishing, painting, and walking his dogs.

What to Expect

At MRO, we specialize in one thing: providing patients access to the advanced cancer therapy they need to fight cancer close to home.

Minneapolis Radiation Oncology
215 Ivy St.
Brainerd, MN 56401
